

PluginFrame\Core\DB  
\Pagination\PaginationManager  
\getPaginatedResults

```
graph LR; A["PluginFrame\\Core\\DB\\Pagination\\PaginationManager\\getPaginatedResults"] --> B["PluginFrame\\Core\\DB\\Utils\\QueryBuilder\\table"]; B --> B;
```

The diagram illustrates a sequence of operations. On the left, a white rectangular box with a black border contains the text 'PluginFrame\\Core\\DB\\Pagination\\PaginationManager\\getPaginatedResults'. A straight blue arrow points from the right side of this box to the left side of a second box on the right. This second box is shaded gray and contains the text 'PluginFrame\\Core\\DB\\Utils\\QueryBuilder\\table'. A curved blue arrow originates from the top of the gray box and points back down into the same box, indicating a self-call or a loop.
