PluginFrame\Core\Hooks
\Upgrade\beforeUpload

PluginFrame\Core\Hooks
\Upgrade\isPluginUpload

```
graph LR; A["PluginFrame\\Core\\Hooks\\Upgrade\\afterUpload"] --> C["PluginFrame\\Core\\Hooks\\Upgrade\\isPluginUpload"]; B["PluginFrame\\Core\\Hooks\\Upgrade\\beforeUpload"] --> C;
```

The diagram illustrates a dependency or inheritance relationship. On the left, two white rectangular boxes represent source hooks: 'PluginFrame\\Core\\Hooks\\Upgrade\\afterUpload' (top) and 'PluginFrame\\Core\\Hooks\\Upgrade\\beforeUpload' (bottom). On the right, a gray rectangular box represents a target hook: 'PluginFrame\\Core\\Hooks\\Upgrade\\isPluginUpload'. Two blue arrows point from the right side of each source box to the left side of the target box, indicating that both source hooks are associated with or point to the target hook.
