

PluginFrame\Core\Hooks
\Activation\handleActivation

```
graph LR; A["PluginFrame\\Core\\Hooks\\Activation\\handleActivation"] --> B["PluginFrame\\Core\\Hooks\\Activation\\activate"]
```

A diagram showing a mapping from a source function to a target function. On the left, a gray rectangular box contains the text 'PluginFrame\\Core\\Hooks\\Activation\\handleActivation'. A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white with a black border and contains the text 'PluginFrame\\Core\\Hooks\\Activation\\activate'.
